Operator

Address and Telephone Number

I am interested in conserving the soil of my farm and desire assistance in developing a complete soil and water conservation program for my land.

I agree to follow the recommendations of the District as agreed upon by the District and myself to the best of my ability in establishing conservation practices on my land.

We, the supervisors of the Gem Soil and Water Conservation District, agree to help you develop a conservation plan for your land in accordance with its needs and for your farm enterprise. We also agree to assist you in carrying out your plan by providing such information and technical or other assistance as we may have available.

This agreement will remain in effect until cancelled in writing by either party, or until the farm is sold.
